ASSOCIATE DEGREE (AA) :	BACHELOR DEGREE:
<p>Sunrise University offers Live and distance learning associate degree in liberal arts (AA) The university offers a broad base of liberal arts education, in subjects environmental, social sciences, natural sciences, and history. These general education courses will help you develop important career skills that are in high demand across many industries.</p>	<p>Sunrise offers many innovative and affordable online bachelor's degrees. On-campus, we work with scientists, therapists, and subject matter specialists to create innovative and career-focused programs.</p>
HEALTHCARE STUDENT CLINICS:	NATUROPATHIC MENTAL HEALTH TRAINING:
<p>We offer CEU for Healthcare students and clinical training in environmental and integrative medical therapies to help facilitate licensure for its participants and learners. The therapeutic component of this program will serve clients aged 14-25 with learning and emotional disabilities; as well as offer training for health professional students. All tracks are offered simultaneously which gives students the option to cross tracks, i.e- undergraduate student would like to take CEU course in integrative science then they can.</p>	<p>Sunrise offers a naturopathic clinical training to nurses and health practitioners who are interested in integrative mental and behavioral health . The participants are trained to provide compassionate patient-centered care, using best practices in the naturopathic , clinical, environmental, social-behavioral sciences and art &amp; science of medicine. This Sunrise Innovative Course(SIC) is designed for students and practitioners who wish to build their clinical skills for the new integrated Mental Health experiences that inform their vision as future nurses &amp; physicians. Course goals include integration into the clinical setting with preceptors, development of concrete skills, and introduction to different career paths. SIC includes three components: (1) clinical experiences, (2) interactive large group workshops , and (3) small group sessions and workshops for reflection before term exams. Students receive outstanding patient care training offered at Atlantis Education &amp; Medical Centers and affiliated sites.</p>
